Linda M. Hodgdon

Dear Educator:

Enclosed are informational kits detailing an important option available to help parents prepare for the rising cost of higher education: the UNIQUE College Investing Plan, the 529 plan offered by the State of New Hampshire to assist parents in meeting the financial commitments of college. Please distribute the kits to your students and encourage them to pass them on to their parents or guardians.

We appreciate your assistance in our effort to encourage families to begin saving. If you need additional kits, please contact the Treasurer's office at 603-271-2628 or mail in the enclosed business reply card.

Please feel free to link your school's Web site to these materials, posted at <http://www.nh.gov/treasury/>. It is through our combined efforts that many more New Hampshire students may have access to higher education opportunities.

Sincerely,

A handwritten signature in cursive script that reads "Catherine A. Provencher".

Catherine A. Provencher
State Treasurer
State of New Hampshire
